

ROOM REFURBISHMENT PROGRAM

The Edgewater Resort and Spa is pleased to confirm the Refurbishment Program that is being planned for the Lagoon View Rooms. This work begin in the 2nd week of January 2019.

Refurbishment work will include the off-site build of cabinetry. This will reduce the onsite noise levels to a minimum. Both the front and back of each room will also be retiled. When this work is being carried out, all Lagoon View Bookings will be upgraded to keep guests as far away from this area as possible.

It is envisaged that the work will take up to 6 weeks - (3 weeks per block of 12 rooms)

Lagoon View Rooms – Takutea and Aitutaki

Aitutaki Rooms – work to commence February

Takutea Rooms – work to commence 2nd week of January

We plan to have the two Lagoon View Rooms completed in under 6 weeks.

Attention will then be moved to the Garden Superior Rooms

It is envisaged that the work will take up to 3 weeks per block of rooms. Once the Lagoon View Rooms are completed, work will then start on the Garden Superior
