
ALOHA

We wanted to inform you that the first phase of our spalling repair project will take place from November 1, 2023-February 1, 2024. We understand the importance of minimal disruption during our guests stay, so we'll be isolating repairs to one wing at a time and work will only take place on weekdays between 9am-4pm. A detailed project schedule is forthcoming as we are still solidifying the timeline with the contractors.

*We appreciate your understanding
as we work to improve your
experience during this stay and
future visits.*

Diagram as of 10/31/2023; Repair schedule is subject to change.
